Stadium Crowds | Because all real football fans like to sit and feel helpless when their team loses but still be able to cheer for their favourite team, or at least people at the stadium that aren't real fans. Stadium Swimming Pools | Because no matter how old and fragile a real swimming pool may be, real fans at a stadium have to get their fair share of relief from the hot sun. Stadium Helicopters | Because real fans at a stadium only want to feel important when they're being seen in their fancy helicopter. And if you can't be seen, then there's no real reason to go to a stadium. Stadium Camps | Because real football fans in stadium camps don't really want to miss a real game. Although if they do miss a game, they're basically real campers. I can't think of another one. But then again I have only read the first book of this series. The story is very much what you would expect, a young boy, a

handsome prince with horrible social skills, a talking horse. Very well written. A prequel of sorts to the first book in the series. This is where we find out why Briar is the son of the king, and how he came to inherit the throne. It's a slow story, but I think it was well worth it. I just had to know what would happen to the prince who was just born in the first book. This is not a continuation of the story, it is a conclusion of another story. This one is all about the actual war, which is pretty interesting. I am not a fan of books with really long descriptions of battles and all, so I will try to keep this short and simple. Anyway, this is a pretty cool book. There is some history, so if you are interested in that, you might want to read this book first. Then you can read it and only read about the war itself. It's a good book, but be warned that it will make you angry. Ah, the saga continues. The sequel is just as good if

---

not better than the first book. King Regis is a great character, and I love the development of Renlyn and Jess. It takes the story even farther than the first book did. While prices of Bitcoin could be volatile at times, the recent price drop does not mean anything to the people who own the cryptocurrency. Yes, in some markets, it
