A: From a beginners' perspective, it is essential to have a transmitter handy in addition to the ClearView RC Flight Simulator, and you'll find that the best and most widely used type of transmitter is the Futaba SG series. There are other electronics companies who make their own transmitters, but they are a bit less common and they don't offer an open serial interface (they are usually programmed via an RS-232C port). The reason for this is that it's a bit more complex as compared to the SG series, but you'll never
