August 3, 1997 "David Kelley, the son of the late Miles McCue, died June 8 at the age of 15 years. David was a basketball fan who had a love of motorcycles. His family would like to thank the staff of the Children's Specialty Hospital in Faribault for their excellent care of David." www.macworld.com/getinfo p. June 2, 1997 Janet Keller (Class of 1997) - "Chronic fatigue syndrome is a condition that seriously affects how people feel and function. Many people with chronic fatigue syndrome live their lives feeling like they are going to crash at any time. Many doctors do not believe that it is a real disease, instead they dismiss the person. Dr. Greg Biga, oncologist at Mayo Clinic, had been studying Chronic Fatigue Syndrome for 15 years. He decided to examine the role of the human growth hormone in this disease. He knew this would be challenging. He told Janet: "If we can't prove this is a real disease, we'll never know if HGH can help it." Janet responded, "I know I am sick, and I want to feel better." For the next three years, Dr. Biga and his team studied patients with Chronic Fatigue Syndrome, with and without HGH. After six years of research, the team proved Chronic Fatigue Syndrome is a real disease, and they developed a solution, that works. The product is produced in a lab using human growth hormone extracted from the pituitary glands of cows. No human growth hormone is used." July 5, 1996 "Laurie McCann now has a very unique therapy for her Crohn's Disease. Laura, now a sophomore at Albertus Magnus College in Rockford, spent several days last week in Boston getting treatment at the Rosemary House, a house where one is completely isolated. She didn't see her parents, her friends, or the rest of the world for five days. Her doctor had never heard of anything like that, but Laura wanted to try it. She has a good friend who suffers from Crohn's Disease, and she told her parents about the Rosemary House. The program is just an idea that came from the thinking of a patient who has Crohn's Disease." May 7, 1996 "Al Hansen, the son of Bob Hansen of St. Paul, died on May 7 at the age of 13 years. Al was a member of the Holly Club softball
